Public Works: Reduce, Reuse, Recycle

Did you know that the plastic bags that you get at the grocery store and at retail stores such as WalMart and Target are not recyclable? These bags typically get thrown in with your regular trash, but why not put them to good use? For instance, when you're done painting, slip a plastic bag over the paint can lid before replacing it so that dirt or flakes of dried paint on the lid's underside won't fall into the liquid. They are also handy for picking up dog messes, applying waxes or creams to furniture and even wearing over muddy or wet shoes to avoid tracks on floors and carpets. There are dozens of uses for plastic bags. Why not be creative?
